GESSI

PERLE

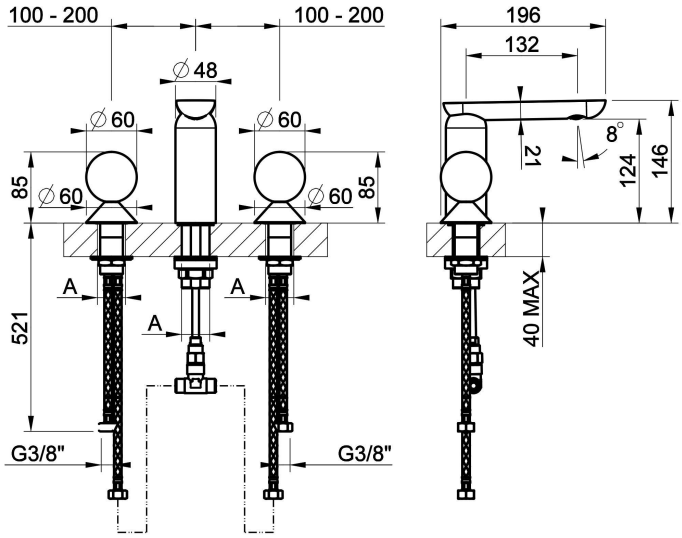

74005

Three-holes basin mixer without waste, with connecting flexibles. Pearls in Metal.

TECHNICAL FEATURES

- **Drive:** Separate control
- **Drain type:** Free flow drain
- **Presence of water supply connections:** Sì
- **Connection hoses:** Flexible supply hoses included
- **Water supply connections:** G3/8"
- **Height:** 146 mm
- **Width:** 260 mm
- **Depth:** 196 mm
- **Water point presence:** Yes
- **Water point height:** 124 mm
- **Water point length:** 132 mm
- **Electronics:** No
- **Battery presence:** No
- **Sensor presence:** No
- **Customizable product:** No
- **Water mixing type:** Mechanical mixing
- **Cartridge type:** Cartridge
- **Cartridge size:** G1/2"
- **Swivel spout presence:** No
- **Handle material:** Metal, Metal

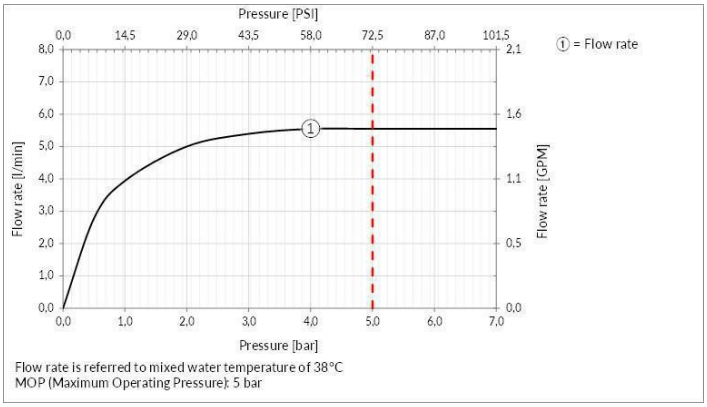

A = ∅ 35 HOLE SIZE

CERTIFICATIONS

- The main components in contact with drinking water comply with ACS requirements, UBA list, KTW BWGL
- Water tightness resistance and long term functionality in accordance with EN-200

Production managed by a certified Quality System compliant with ISO 9001:2015 For additionals approved contact Gessi S.P.A.

TECHNICAL PRESCRIPTION

- Test watertight and cleaning of the pipes before installing the tap.
- In order to guarantee a long duration of the product and its total functionality install filter.
- Working maximum pressure value 5 bar - in case of higher pressure, to use a pressure reducer.
- Working pressure for an optimal installation: 3 bar.
- In any case please refer to the instruction manual and warranty provided with the product.
- Supply the product with mains water with a maximum temperature of 70 °C and for short periods of use.

INDICATIONS FOR CLEANING

Clean only with a new microfiber cloth and soapy water and dry with a dry cloth. Detergents, solvents, alcohol, abrasive sponges, wire, wool, alcohol, etc., should not be used as these could irreparably damage product surfaces compromising its aesthetics and brilliance.

ACCESSORIES AND FITTINGS

For additional matching bathroom accessories and fittings available, see official Gessi price list.

FINISHES CHARACTERISTICS

CHROME
Gessi products have a Chromium Plating finish. This is a high-quality coating composed of a first layer of nickel, a second layer of chromium, a very shiny appearance, high resistance to corrosion and abrasion.

LAQUERED
Gessi products have an industrial lacquer finish. This coating is obtained by means of a special industrial process that involves spraying the lacquer onto the product with a subsequent firing process at a high temperature. The lacquer used is of the highest quality and ensures maximum resistance and durability. The different lacquer types depend on the product type.

PVD COLORS
Gessi products have a PVD finish. This coating is obtained through the PVD (Physical Vapour Deposition) process, which is a state-of-the-art coating process that is highly resistant to abrasion and corrosion. The process is carried out in a vacuum chamber, where the material to be deposited is heated and vaporized, and then condensed onto the product to be coated. The result is a thin, uniform, and highly resistant film.

STAINLESS STEEL
Gessi products have a solid Stainless Steel finish. This is a very high-quality finish, with a very high resistance to corrosion and abrasion. The finish is obtained by means of a special brushing process, which gives the product a very elegant and modern appearance. The finish is also very easy to clean and maintain.
