MATERIALE
MATERIAL

Il VetroFreddo® Compact, ottimizzazione del VetroFreddo® completato dall'unione di ossidi di alluminio, ossidi di titanio e pregiate resine acrilate. L'unione dei due materiali consente di conservare le caratteristiche tecniche ed estetiche del minerale, permettendo di ottenere un materiale con ottime proprietà fisico-chimiche.

VetroFreddo® Compact, optimization of VetroFreddo® completed by the union of aluminum oxides, titanium oxides and high-quality acrylate resins. The union of the two materials allows to preserve the technical and aesthetic characteristics of the mineral, resulting in a material with excellent physical-chemical properties.

CURA E MANUTENZIONE
CARE AND MAINTENANCE

Per rimuovere macchie, calcare e sporco, che naturalmente si potrebbero depositare sulla superficie è sufficiente pulire con acqua saponata o detergenti neutri. Si sconsiglia l'uso di prodotti chimici aggressivi. In caso di graffi e lievi scheggiature, per la finitura bianco materico è possibile ripristinare la superficie danneggiata grazie al kit di ripristino. Alcune sostanze come inchiostro, cosmetici e tinte, a contatto prolungato con il nostro materiale, possono rilasciare colorante sulla superficie. In tal caso l'azienda non potrà essere ritenuta in alcun modo responsabile.

To remove stains, lime scale and dirt, which could naturally deposit on the surface, simply clean with soapy water or neutral detergents. The use of aggressive chemicals is not recommended. In case of scratches and slight chipping, for the white textured finish it is possible to restore the damaged surface thanks to the restoration kit. Some substances such as ink, cosmetics and dyes, in prolonged contact with our material, can release dyes variations and stains on the surface. In this case, the company cannot be held responsible in any way.
