PALOMBA COLLECTION

The design of the LAUFEN PALOMBA COLLECTION recalls small inlets or pebbles shaped by the eternal movement of the sea, expertly transformed into ceramic. All elements of the collection harmonise with one another as each one of them bears the signature of the Italian designer couple, Ludovica+Roberto Palomba.

SENTEC

Sentec

Bathing in a bathtub made of solid surface material Sentec feels like being in a natural basin. Due to a high percentage of mineral particles, the surface feels smooth. The innovative material also allows an incredible freedom of design: almost every shape is feasible – from very organic to very straight and architectural. Furthermore the non-porous surface of the material is hygienic, durable, UV-resistant, highly resistant to scratches a and can be effortlessly cleaned.
