INO

INO, designed by Toan Nguyen, reinterprets the classic washbasin with graceful simplicity. Using the unique properties of Saphirkeramik, the collection transforms everyday functionality into seemingly weightless forms for contemporary bathrooms.

#material_text

saphirkeramik

Saphirkeramik

Saphirkeramik, patented and available on the market is one of the latest, globally significant innovation from LAUFEN. This revolutionary, ceramic material reaches its exceptional hardness blended with corundum, a colourless mineral, which is a component of sapphires. This gives Saphirkeramik a flexural strength equal to that of steel. Yet it has the potential to be wafer-thin, giving designers almost infinite freedom to experiment – and tear up the rulebook of bathroom design.
